DESCRIPTION OF THE BUSINESS

Acquisition of PlantX Life Inc.

On March 27, 2020, the Company entered into a Share Exchange Agreement, which sets out the basic terms and conditions for the Acquisition by the Company of all of the issued and outstanding common shares in the capital of PlantX Life Inc. (“PlantX”), in exchange for common shares in the capital of the Company. The Acquisition will constitute a “fundamental change” for the Company pursuant to the rules and policies of the Canadian Securities Exchange (“CSE”).

The Acquisition is an arm's-length transaction. Upon successful completion of the Acquisition, the Company will change its name to “Vegaste Technologies Corp.” and will continue the business of PlantX as furthered detailed below.

Pursuant to the terms of the Share Exchange Agreement and in consideration for the Acquisition, on closing thereof (“Closing”), the Company will issue an aggregate of 61,072,220 common shares in the capital of the Company (the “Payment Shares”) to the holders of PlantX common shares at a deemed price of \$0.25 per Payment Share on a post-consolidated basis.

At Closing, all outstanding unexercised options to acquire PlantX common shares pursuant to outstanding PlantX options (“PlantX Options”) will be cancelled. In consideration for such disposition, the holders of PlantX Options will receive the right (a “Replacement Option”), to acquire one common share in the capital of the Company (a “Common Share”). The exercise price under each Replacement Option will be equal to the exercise price at the time of Closing under the particular PlantX Option that was cancelled in consideration for such Replacement Option.

Prior to the Closing, the Company will consolidate its share capital on a ten (10) old shares for one (1) new share basis.

The Payment Shares will be subject to escrow conditions and/or resale restrictions as required by applicable securities laws and the policies of the CSE.

Closing of the Acquisition remains subject to certain closing conditions, including, completion of the Offering (as defined below), obtaining all necessary approvals, including, approval of the CSE, and if applicable, shareholders of the Company. There can be no assurance that the Transaction will be completed as proposed or at all.

The Company also intends to complete a non-brokered private placement offering of not less than 6,000,000 Common Shares on a post-consolidated basis at a price of \$0.25 per Common Share for gross proceeds of not less than \$1,500,000 (the "Offering").

Closing of the Offering is subject to a number of conditions, including receipt of all necessary corporate and regulatory approvals, including the CSE.

As of April 30, 2020 and June 29, 2020, the transaction has not yet closed.

Management Changes

On December 3, 2019, Suzette Ramcharan and Domenic Minichiello resigned from the board of directors, and Dave Jenkins was appointed as a director of the Company.

FINANCIAL STATEMENTS GOING CONCERN ASSUMPTION

The condensed interim financial statements of the Company have been prepared on the basis of accounting principles applicable to a going concern under IFRS. The use of these principles under IFRS assumes that the Company will continue in operation for the foreseeable future and will be able to realize assets and discharge its liabilities in the normal course of operations. The Company incurs operating losses, which casts significant doubt about the Company's ability to continue as a going concern.

Management's current strategy is careful cost control while pursuing opportunities within various market sectors. Management recognizes the Company's need to increase its cash reserves if it intends to adhere to its plans and has evaluated its potential sources of funds. Although management intends to assess and act on these options throughout the course of the year, there can be no assurance that the steps management take will be successful.

In the event that cash flow from operations, together with the proceeds from any future financings are insufficient to cover planned expenditures, management will allocate available resources in such manner as deemed to be in the Company's best interest. This may result in a significant reduction in the scope of existing and planned operations.

As at April 30, 2020, the Company has not generated any revenues from operations and has a deficit of \$13,897,000 (July 31, 2019 - \$13,525,372). The Company is actively seeking additional sources of financing. In assessing whether the going concern assumption is appropriate. Management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of uncertainties related to events or conditions that may cast significant doubt upon its ability to continue as a going concern that these uncertainties are material and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business.

Accordingly, these condensed interim financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore to realize its assets and discharge its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying condensed interim financial statements. These adjustments could be material.

Management's Responsibility for Financial Statements

The information provided in this report is the responsibility of management. In the preparation of these statements, estimates are sometimes necessary to make a determination of future values for certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in the condensed interim financial statements.

Trends

Trends in the industry can materially affect how well any junior minerals company is performing. The price of precious metals has undergone a recent retracement, although worldwide exploration is being maintained. Company management believes that the retracement is a short-term anomaly and that the general trend will show precious metals prices to be higher over time. However, the Company's investments are in the mineral exploration sector and the presently depressed market for mining companies and their valuations can adversely affect the Company's ability to successfully complete transactions.

Outlook

The outlook for precious metals is uncertain and has seen a recent decline on prices. As of April 30, 2020, the Company's focus is the Share Exchange Agreement with PlantX.

COVID-19

In March 2020, there was a global outbreak of COVID-19 (coronavirus), which has had a significant impact on businesses through the restrictions put in place by the Canadian, provincial and municipal governments regarding travel, business operations and isolation/quarantine orders. At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Company as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus. While the extent of the impact is unknown, the Company anticipate this outbreak might increase the difficulty in capital raising which may negatively impact the Company's business and financial condition.
